## Objective

---

I'm a **BCA 2nd-year student at Maharaja Ranjit Singh College** with a strong passion for web development and software engineering. I enjoy coding, learning new technologies, and building projects that solve real-world problems. I am currently seeking an **internship in development** to gain hands-on experience and grow my technical skills.

## Education

---

Bachelor of Computer Applications (BCA) - 2nd Year (Ongoing)  
Maharaja Ranjit Singh College, Indore, Madhya Pradesh

## Skills & Abilities

---

- Communication
- Time Management
- Critical Thinking
- Adaptability
- Teamwork
- Fun and energetic

## Certifications

---

### C and C++ Programming (Certificate)

Programmers Point

Gained foundational knowledge in C and C++, covering core concepts like variables, functions, loops, and memory management. Completed practical assignments that strengthened problem-solving skills and improved the ability to write efficient code in both languages.

## Projects

---

### Simple Calculator

Developed a calculator in C++ to perform basic arithmetic operations such as addition, subtraction, multiplication, and division. Focused on implementing user input handling and function creation. Built using standard I/O functions with error handling for invalid inputs. The project improved my understanding of C++ syntax and problem-solving techniques.

*Technologies: C++ (Console Application)*

### Student Management System

Created a student management system in C to store and display student details like name, roll number, and marks. Utilized file handling to persist data across sessions and built a simple menu-driven interface. Focused on implementing functions, loops, and data validation.

*Technologies: C (Console Application)*
